AMT SyncSys - Board Layout and Connector Locations

Top view, component side. Board 8.0 x 5.2 in. Connector and hole positions approximate (from the 3D view).

Height 1.5 in, without the mating plugs. Five mounting holes (MTG). The Ethernet jack overhangs the top edge.

Connector pin assignments: see the AMT SyncSys Ax and AMT SyncSys IO Connection Diagrams 110826.

Positions are approximate; take hole and connector dimensions for machining or panel cut-outs from the PCB design files.
